

CUVEE SERIES TANK STAVES

The Cuvée Series tank staves are designed to provide a consistent, high-quality oak finish for your wine. They are made from the same premium oak wood used in our other products, ensuring a consistent flavor profile. The staves are finished with a natural, non-toxic finish that allows the oak's natural oils to seep into the wine, enhancing its character.

Tank staves (10-15): These staves are designed for use in larger wine tanks. They are made from thick, solid oak wood and are finished with a natural, non-toxic finish. They are available in lengths of 10, 12, 14, and 15 feet.

Mini staves (1 μ μ 40 μ μ): These staves are designed for use in smaller wine tanks. They are made from thick, solid oak wood and are finished with a natural, non-toxic finish. They are available in lengths of 1.5, 2, and 2.5 feet.

The Cuvée Series tank staves are available in several different finishes, including natural oak, French oak, and American oak. They are also available in different grades of oak, including heartwood and sapwood.
