TOASTED

SMALL BATCH BARRELS

Offered in Limited Quantities

Small Batch barrels combine innovation and technology to bring out the best in your spirits.

Spiral Cut Barrel

After charring, we cut spirals throughout the inside of the barrel allowing aging spirits access to alternating layers of char and white oak.

Wave Stave Barrel

Smooth ridges are cut lengthwise creating peaks and valleys that react differently during toasting and charring.

Toasted Barrels

Toasting barrels before charring, releases desirable aromas and flavors, and enhances flavor extractives.

Smoke 1 – Sweet smoke notes that show up quickly during maturation but gradually develop a rich smoky character that adds depth to the spirit.

Spice 1 – Autumn inspired spice notes to accent the estery characters of the spirit with moderate intensity.

Sweet 1 – A barrel that builds with intensity over time showcasing the natural grains of the spirit against a backdrop of sweet oak.

Sweet 2 – The French Oak tannins add a textural depth and sweetness that transforms the spirit with color and flavor.

COOPER'S SELECT

Seasoned to Perfection

The extended seasoning of the Cooper's Select barrel allows natural elements (light, humidity and fungal activity) to facilitate changes to the oak chemistry. This adds complexity and softness to the palate.

18-month seasoning
Char #1 - #4
Laser branded ISC logo
Galvanized hoops

CLASSIC

The World's Most Popular Barrel

Our Classic barrel has been around for decades, earning it a reputation as a go-to barrel for distillers around the world. With char and toasting options, this barrel can be customized to your specifications.

Char #1 - #4
Galvanized hoops
Laser branded ISC logo
Customized toast options
Premium packaging

Traditional Char Levels (1-4)

Lighter char levels show more fruit esters and spice notes. Darker char levels will extract more vanilla flavors and color into the spirit. *Char #4 is the world's most popular char option.*
